SECRICT . U.S. OFFICIALS ONLY 25X1 ca 2 a 5. Three radio trucks, each with an about 8-meter-high antenna mast, were observed in the southwestern extension of the runway inside of the field. A radio installation with four masts and a radar set, probably a Kniferest-type set, were located in the northeastern extension of the runway. 6. Six canvas-covered AA guns, either 76-mm or 85-mm caliber, were observed in the AA gun emplacement in the northwestern corner of the field. Near the emplacement were two rader sets of type AA 1 MK 2. The superstructure of one set was just being dismantled. Six light AA guns were observed in front of the sheds near the emplacement and a number of motor vehicles were parked in the sheds 25X1 7. Vehicular traffic observed involved jeep 25X1 and truck During the moon hours on 5 June, about 40 twin-jet aircraft, probably I1-28s 25X1 and U-I1-28s were observed at the field. Until about 1400, flights were made in the vicinity of the field. 25X1 Comment. The shipments which arrived in Wernsuchen on 24 and 28 May 195, l. were previously reported. previously reported the arrival of o trains with a total of 141 boxcars 10 coaches and 90 flatcars from the direction of Brest Litovsk. Comment. The AA shipment had left Werneuchen and moved toward Neubukow 25X1 10 May 1954. At present, 1 medium AA battery with 6  $\hat{x}$ 76-mm or 85-mm AA guns and 1 light AA battery with 6 x 37-mm AA guns in addition to some guns of smaller caliber are stationed at Werneuchen airfield. The radar sets of two AA 1 MK 2 were previously reported for the first time. 25X1 The arrival of the ammunition shipment was previously reported. 25X1 з. The shipment from Buckau probably also contained ammunition. Comment. For three photographs see Annexes 1 through 2001 These photographs indicate that the II-28s and U-II-28s do not differ from the twinjet aircraft formerly observed. On one photograph of a U-I1-28 the air exhaust 25X1 appears distorted as the camera was slightly moved while taking the picture. The I1-28s had been stationed in East Germany prior to late June picture. The Il-28s 1953/
